Highlights

15 mm speaker driver
Small enough for optimum wearing comfort and big enough to deliver crisp, non-distorted sound, the 15 mm speaker driver is an ideal size for listening enjoyment.

Carry case
This case is the most convenient way to look after your headphones and prevent the cable tangling when not in use.

Comfortable ear cushions
The special shape and luxurious materials used for the ear cushions ensure a perfect fit for maximum comfort. They prevent audio leakage and enhance bass performance too. The ear cushions are shaped in such a way that they perfectly align with the area around a person's ear.

In-line volume control
Adjust the volume to your preferred level without having to go to the audio source unit.

Neodymium magnet
Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

Twin vents
Specially designed vents that channel the air balance the high tones and bass for a more rounded listening experience.

Flexi-Grip design
A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.
